

A fun and memorable full-day trip for you to experience the Beauty of dramatic limestone karst formations, lush jungle and Mangroves through canoeing at Ao Talane with a highlight of narrow channels cut through two towering karsts complexes, passable at most times except during extremely low tide periods. Relax and snorkel at Hong Island, an outstanding island located in the northwest of Ao Nang. The bay in the north of this island is so similar to a hall, and this is the reason why the island is called Koh Hong, which means a “hall” island.
